LODGE RENOVATIONS &
REDECORATING

 **MILLS GROUP**
ARCHITECTURE • PLANNING • PRESERVATION

A scenic view of a river valley. In the foreground, a stone wall with a metal railing runs across the frame. Two ornate stone pillars with spherical tops are positioned on the wall. The river flows through the valley, with a bridge visible in the distance. The background shows rolling hills and dense green trees. The sky is bright, and the overall scene is peaceful and natural.

LETTER OF
INTEREST

June 14, 2019

Ms. Angela Negley
West Virginia Division of Natural Resources
Property and Procurement Office
324 4th Avenue
South Charleston, WV 25303

Re: Expression of Interest: Hawks Nest State Park Lodge Redecoration and Renovation

Dear Ms. Negley,

Mills Group is pleased to submit this expression of interest as an offer of our professional services for the redecoration and renovation to Hawks Nest State Park Lodge located in Ansted, WV.

Our team has been overseeing the design, rehabilitation and coordination for a multitude of commercial and hospitality projects for over ten years. The caliber of talent of the Mills Group team will be an asset to your project. Hospitality renovation and redecoration success stories include:

- Hawks Nest/Twin Falls State Park Lodges – Ansted, WV and Twin Falls, WV
- Oglebay Wilson Lodge West Family Wing – Wheeling, WV
- Oglebay Foundation Office – Wheeling, WV
- Blue Sulphur Springs Pavilion – Blue Sulphur Springs, WV
- Old Inn Cacapon – Cacapon, WV
- Fairfield Inn and Suites – Triadelphia, WV
- Courtyard by Marriott – Granville, WV
- Adventure West Virginia Restrooms – Morgantown, WV

These projects are the result of effective and clear communication between the team and the client to ensure timeliness and adherence to the project budget. We have a dedicated staff ready to assist with this project who values the design process, the importance of open and frequent communication with our clients, budgetary requirements and project deadlines.

Proposed Staffing Plan

Michael Mills, AIA is the Managing Principal of the Mills Group. Michael's architecture experience ranges over three states and the District of Columbia. He will provide guidance to ensure that the projects are on time and on budget.

"Designing on the principles of the past and preserving for the future"

MORGANTOWN:	The Weiss Building	63 Wharf Street, Suite 300	Morgantown, WV 26501	Phone: 304.296.1010
WHEELING:	The Kaley Center	53 14 th Street, Suite 607	Wheeling, WV 26003	Phone: 304.233.0048

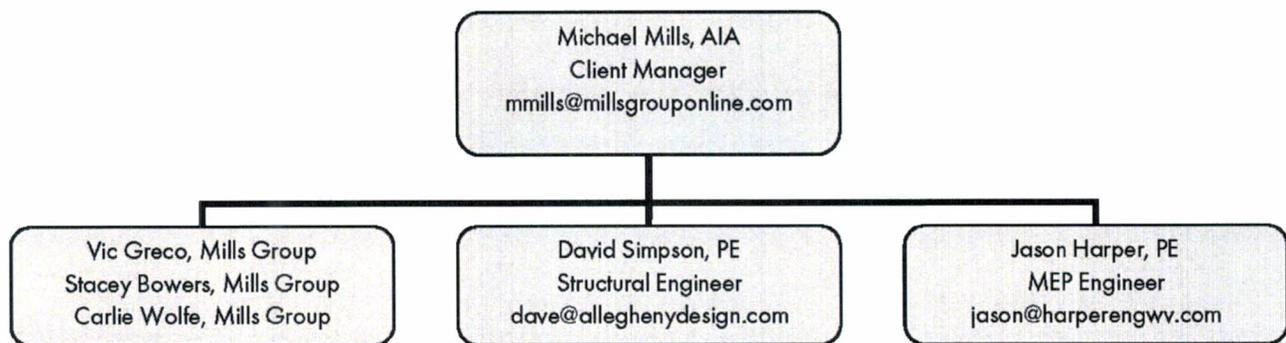

Victor Greco, AIA, NCARB is the Mills Group Principal Architect and head of the Wheeling studio. He will serve as Project Principal. He is a leader in West Virginia's architecture community with 30 years experience in designing and managing large projects from concept to ribbon cutting.

Stacey Bowers, AIA, NCARB will serve as the Project Architect. Stacey's architectural experience includes extensive code review and several commercial building projects.

Carlie Wolfe, Interior Design Associate will serve as the resource for redecoration of the Lodge. Her experience includes hotels, education facilities and commercial buildings.

David Simpson, PE is the president and structural engineer at Allegheny Design Services. His 30 years of structural design experience includes hotels, retail facilities, shopping centers and health care facilities.

Jason Harper, PE is the owner of Harper Engineering. Jason has over a decade of experience with HVAC, electrical, plumbing, and fire alarm system design.

Project Team

Mills Group specializes in architecture with a team of talented architects and planners. Our firm's frequent and open dialogue with clients and regulatory agencies allows for streamlined project review and accurate results.

Allegheny Design Services (ADS) is a group of remarkable engineers in Morgantown who ensure their projects meet current and speculative design needs with sound solutions. This firm will be responsible for structural engineering.

Harper Engineering specializes in innovative engineering design services to architects, owners and contractors in West Virginia. This firm will be responsible for MEP services including the design of HVAC, electrical and plumbing systems.

Scope of Work

The substantial nature of this undertaking necessitates the following scope of work:

- Create a plan for necessary redecorations and renovations to the Hawks Nest Lodge
 - Review existing plans, conditions and evaluate the site while effectively communicating with the owner to determine a plan that can be implemented in a manner that will minimize disruption and meet all objectives
 - Provide all services related to designing facilities that are consistent with the DNR's needs, objectives, current law and code
 - Provide construction contract administration services with a competent team comprised of Mills Group, ADS and Harper Engineering

Methodology

Our team takes pride in the firm's reputation for producing quality designs on projects large and small with the end goal of a completed project that meets or exceeds the client's expectations. Mills Group architects, planners and designers will draw on our reservoir of experience – gleaned over decades and multiple states – to comprehend client needs and produce a design that we will lead to success at every step we can be relied on to keep all pertinent stakeholders abreast of developments. We pride ourselves on having open and transparent conversations with our clients to ensure they are involved throughout the entire design process. The end goal is to work with the Division of Natural Resources, The Hawks Nest State Park Facilities management team, and all other stakeholders to deliver a strategic plan for improvements and renovations.

Our first step would be comprehensive conversations with all the relevant stakeholders coupled with site visits to assess conditions and develop a more defined scope of work.

Once we have a defined scope, we will then be able to provide a complete construction estimate for the project. This will give us the basis needed to propose a definitive timeline for major project milestones. Sustainability and preservation assessment, code, life safety and zoning evaluations will follow. Precedent and product research will lead to design concepts, construction documents, bidding and negotiations. Supervising the construction will be the culmination of all this work in later phases.

The overarching methodology to achieve the project objectives as agreed upon by the client are summarized in the following bullet points:

- *Research the site and its context*
- *Observe Existing Conditions*
- *Analyze and Identify Issues and Opportunities*
- *Develop Alternatives*

- *Make Recommendations and Creating a Solution*
- *Assemble Construction documents*
- *Provide assistance with bidding and execute construction observation*

For Mills Group, the ROADMAP, is a critical path to achieve the success of an existing structure project. The process outlined above is subject to change, based upon phasing of the work to be performed. Mills Group will work with the Division of Natural Resources to determine appropriate phasing of different scopes, as to not greatly disrupt the function of the park facilities.

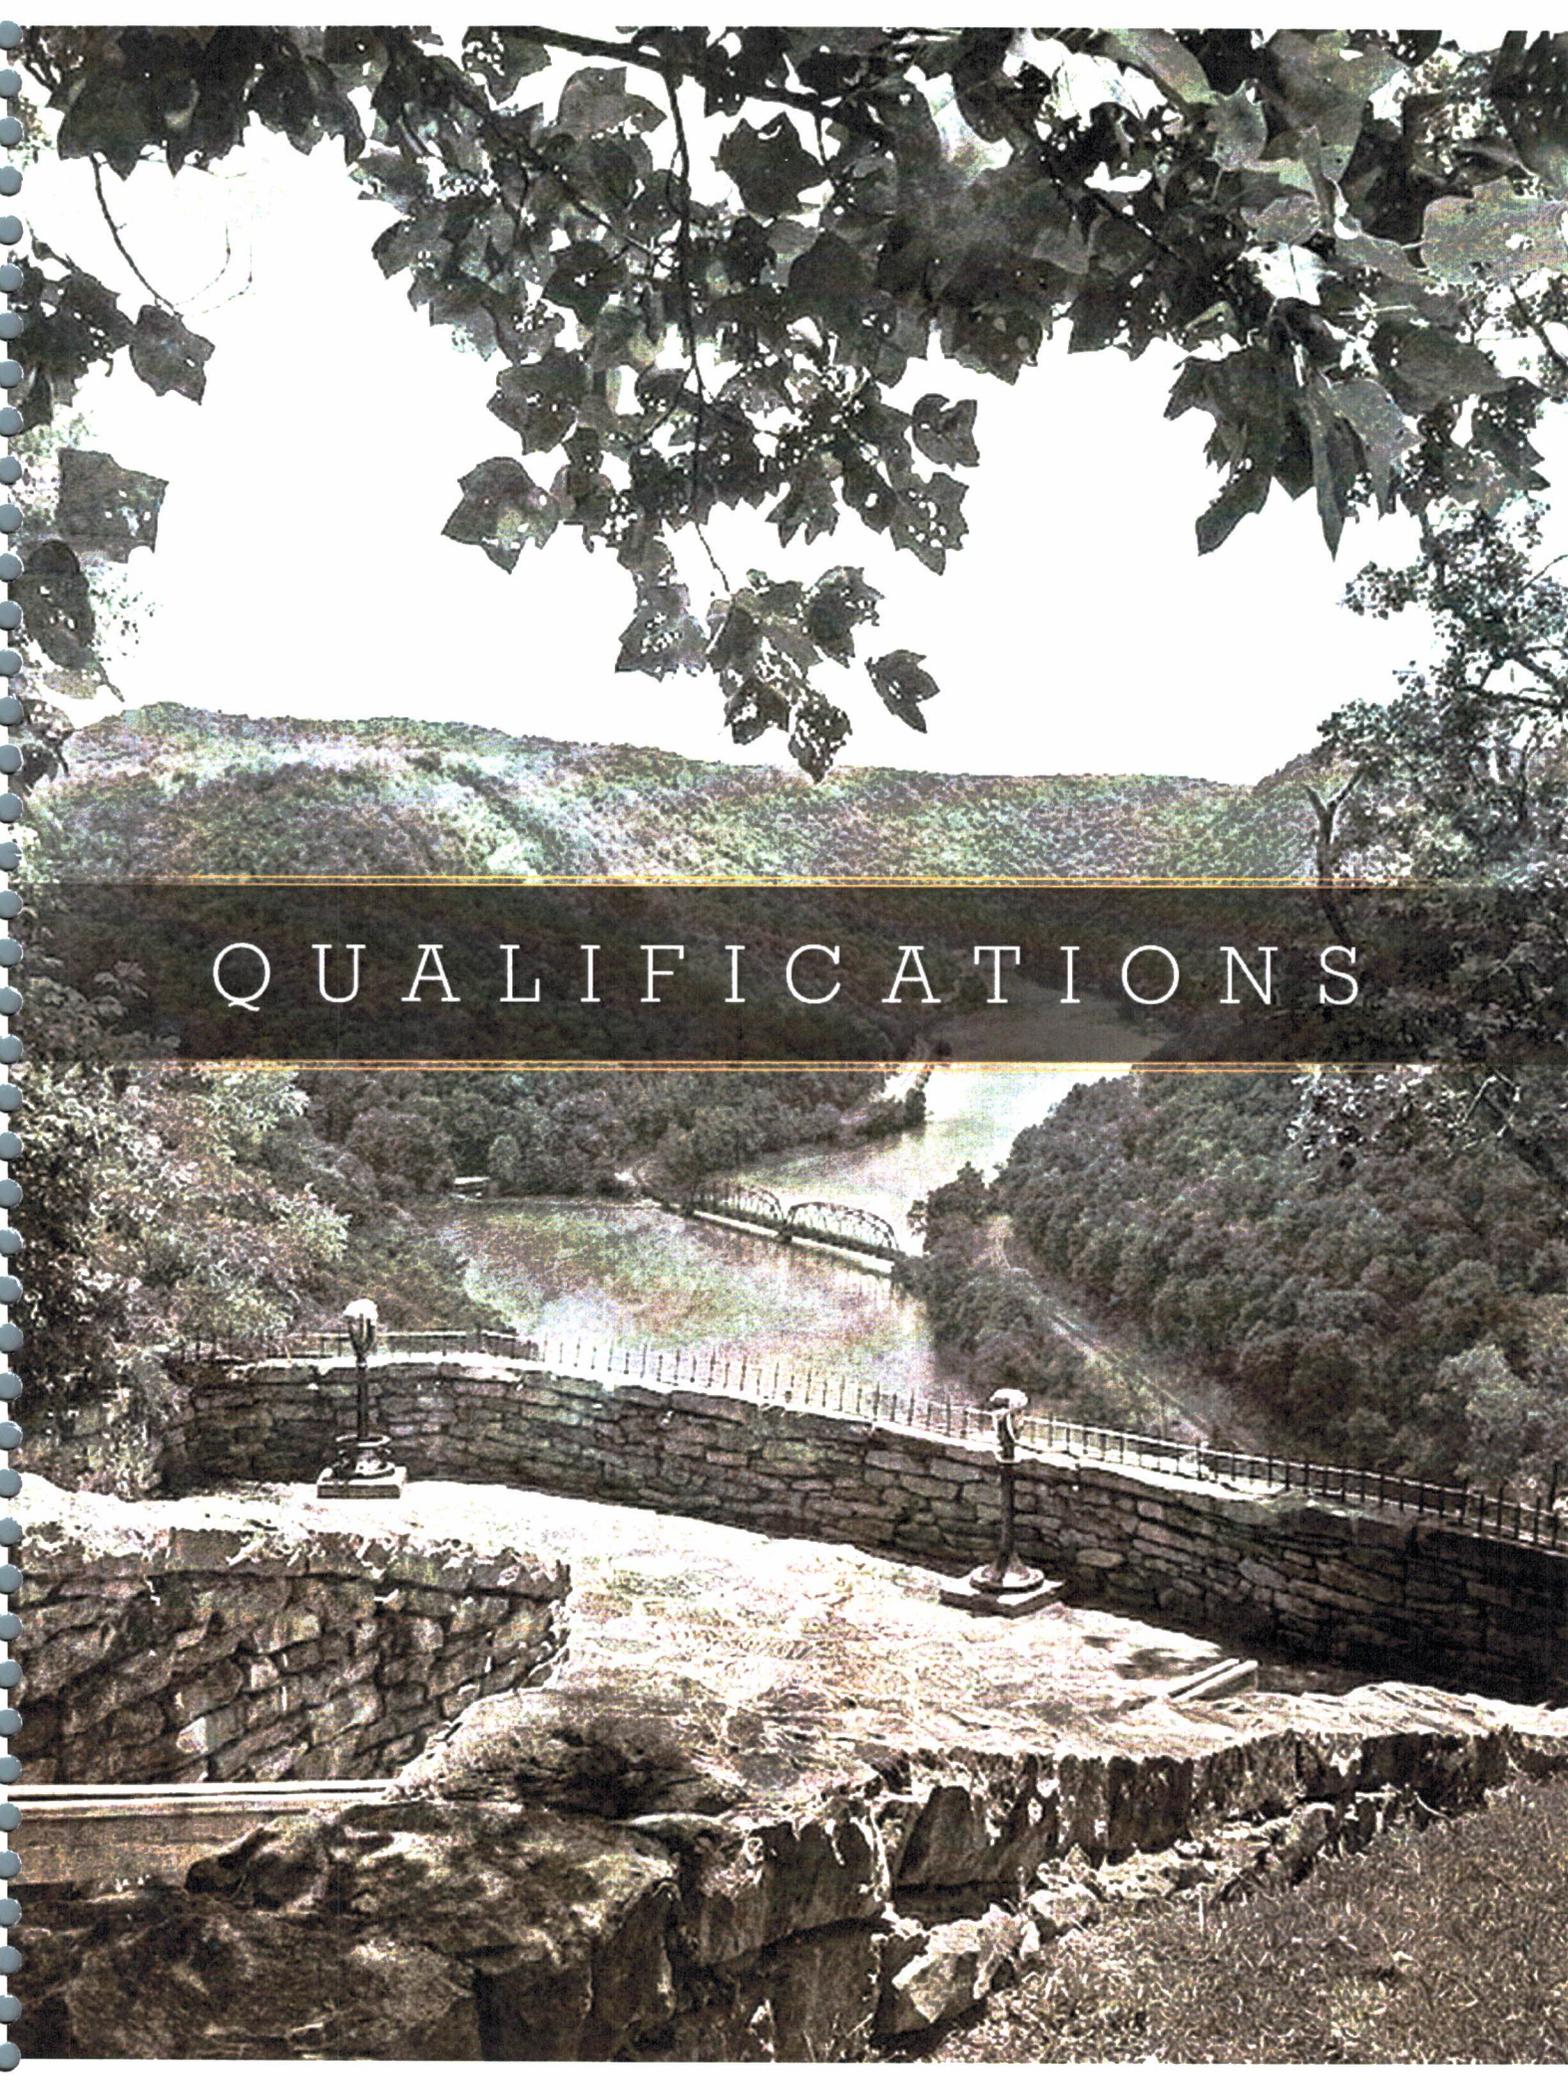

Please find attached our firm and team member resumes along with examples and samples of our work.

We would be delighted to aid the Division of Natural Resources with the redecoration and renovations to the Hawks Nest State Park Lodge. Should you have any questions, please feel free to contact me at 304-296-1010 or email me at mmills@millsgrouponline.com. Thank you for this opportunity.

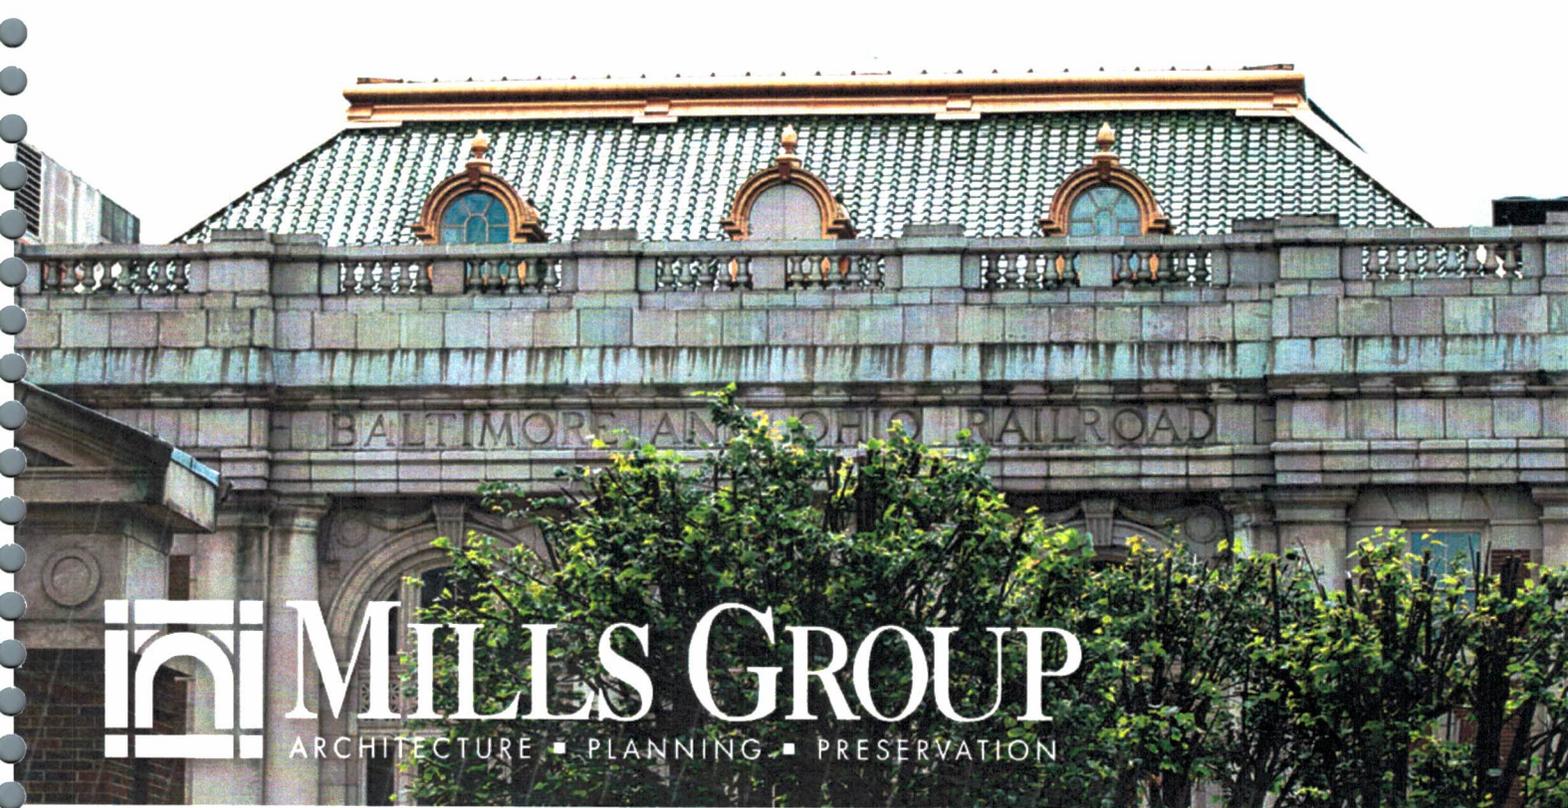

Sincerely,

A handwritten signature in black ink that reads "Michael Mills". The signature is written in a cursive, flowing style.

Michael Mills, AIA
Managing Principal

A scenic view of a river valley. In the foreground, there is a stone wall with two decorative finials. The river flows through the valley, with a stone bridge crossing it. The background shows a forested hillside under a bright sky. The word "QUALIFICATIONS" is written in white capital letters across the middle of the image.

MILLS GROUP

ARCHITECTURE ■ PLANNING ■ PRESERVATION

Our firm currently has nine technical staff members located in the Morgantown office and an office manager/administrator. Our Wheeling office has five technical associates and an office manager. Although we have two offices, we work very closely together and frequently meet through the use of interactive web conferencing and in-person get-togethers. Each team member has a well-rounded architectural background while also possessing a specific area of excellence.

Mills Group is a proven leader in many specialized areas of architecture and design. With experience in commercial, public, and cultural facilities, our firm has a breadth of exposure, which gives us confidence to approach any design challenge. Through engagement and collaboration we develop solutions based on shared visions and focused needs.

Our firm provides careful planning and design for commercial, public, and residential clients both as a necessary asset to an overall architecture project and as a stand-alone service. The firm follows the 'measure twice, cut once' principle, and approaches planning as a forward thinking, cost saving, and practical application for all projects.

We maintain a commitment to the cultural heritage of our region. We strive to raise awareness of the significant history and culture that is the foundation of who we are and ultimately, will become. Our team performs historical research as well as assessing and documenting existing conditions. We compile our findings into a comprehensive narrative, a feasibility study and/or historic structures report for the owner to implement planning for the next phase of use for the building.

Mills Group represents a collection of architects, designers, and researchers dedicated to innovative design and quality work. In 2005 Michael Mills, AIA, answered a market demand for architects with a special skill set. By 2013 the firm expanded to Wheeling to include more talent over a broader geographic range.

The firm's success is a product of diligently understanding client needs, existing conditions, design goals and budget. Our process is built on the foundation of research, client collaboration, and creative solutions. The team looks to the region's architectural heritage for inspiration to celebrate the best of the past and promote economic vitality for the future.

Mills Group happily serves public and private clients. Public sector patrons who have sought our services include cultural agencies, development offices, municipalities, non-profits, and schools. Other architects and engineers, developers, homeowners, and business people are counted among our private clients.

The firm is committed to a quality end product derived from experience, diligence, and collaboration. Clients can always count on us to maintain our efforts from concept to ribbon cutting.

SITE :

ALLEGHENYDESIGN.COM

Allegheny Design Services (ADS) is a consulting engineering firm specializing in structural building design and building analysis. Dedicated to serving West Virginia and the surrounding region, ADS recognizes the need for reliable and full service engineering support. ADS provides all phases necessary for the successful completion of a building project including schematic design studies, design development, construction documents and specifications, and construction administration.

ADS' experience in Design and Project Management includes:

- Commercial Facilities
- Industrial Facilities
- Institutional Facilities
- Educational Facilities

ADS was established by David Simpson, PE, MBA, in 2002 as a result of a need in North Central West Virginia for reliable structural engineering services. In 2009 MEP engineering services were added, led by Mike Chancey, PE. ADS utilizes a combination of office technology and a motivated staff to deliver projects typically up to \$40 million in construction value. Our clients include architects, contractors, developers, attorneys and insurance companies.

ADS currently utilizes the latest engineering design and BIM software for the development of project work.

BIOGRAPHY

Mr. Mills leads all facets of the daily operations of the Mills Group. He has 24 years of experience in historical preservation, architectural design, and planning. Through his extensive work with historic structures, he has a detailed working knowledge of the Secretary of the Interior's Standards for Historic Preservation Projects. His work includes interior and exterior preservation, window restoration, foundation waterproofing, roof repair, integration of MEP systems in a historic structure and the design of interpretive exhibits for historic structures. The other aspects of his work include historic design guidelines, contextual design of new structures, and the issues related the revitalization of main streets across the country.

EXPERIENCE

Courtyard by Marriott - Morgantown, WV

This five-story hotel is a design-build that includes an indoor pool, generous public spaces and a business center. Mills Group was tasked with the FF&E selection, sourcing the interior materials and overseeing construction administration services.

Oglebay Wilson Lodge West Family Wing - Wheeling, WV

Mills Group led the renovation of the West Family Wing at Oglebay Wilson Lodge. The renovation consisted of new fixtures and finishes for the guestrooms on the first level and a total interior demolition on the second level to create space for two more guestrooms with balconies. An elevator was included in the design to accommodate accessibility.

Blue Sulphur Springs - Blue Sulphur Springs, WV

The Greenbrier County Historical Society chose Mills Group to oversee the long-term restoration of the Blue Sulphur Springs Pavilion. Mills Group has assessed building code compliance and offered a treatment and maintenance plan to care for the structure.

Hawks Nest/Twin Falls State Park - Ansted & Twin Falls, WV

Michael assisted with communication between the project manager and the State Historic Preservation Office, documenting the work of the installed units and compiled data to comply with Federal and state regulations.

Old Inn Cacapon Resort State Park - Cacapon, WV

Mills Group was tasked with assessing the integrity of the structure and developing a plan to stabilize the building and its continual maintenance. The team also developed a masterplan.

BIOGRAPHY

Mr. Greco leads our Wheeling office and has over thirty years of experience in historical preservation, architectural design and planning. Victor takes a holistic approach to create design solutions that address the complexities of historic restoration projects, as well as programming and master planning for future growth. He is detail-oriented and pragmatic, working hands-on with clients to ensure their needs are served efficiently and comprehensively. Victor has been recognized state-wide with numerous awards and news articles on his projects and accomplishments. He is very active with Rotary and serves on the Easter Seals Board. Victor is also a Commissioner on the West Virginia Archives and History Commission and a Member of the Wheeling Historic Landmarks Commission.

EXPERIENCE

Fairfield Inn and Suites - *Triadelphia, WV*

Victor led the team in the design and construction with the new Fairfield Inn and Suites. The hotel includes several amenities such as an enclosed pool, fitness room, lobby, food services and meeting rooms. The hotel is comprised of four stories and was designed to fit the existing aesthetic of the Highlands Town Center.

Oglebay Wilson Lodge West Family Wing - *Wheeling, WV*

Mills Group led the renovation of the West Family Wing at Oglebay Wilson Lodge. The renovation consisted of new fixtures and finishes for the guestrooms on the first level and a total interior demolition on the second level to create space for two more guestrooms with balconies. An elevator was included in the design to accommodate accessibility.

Homewood Suites - *Bridgeport, WV*

Mills Group led the design effort in the development of Homewood Suites. The hotel design consisted of 109 suites and targeted some suites for long-term travelers. Amenities include an enclosed pool, fitness area, expanded lobby, outside pergolas and grills.

The Bours Lofts - *Wheeling, WV*

Wheeling's landmark Bours Warehouse was adapted to loft apartments utilizing state and federal Historic Tax Credits. The six-story building has 86,000 sq. ft. for tenants to enjoy in a fully renovated structure that retains its historic character along the Ohio River. Historic elements including interior timbering, window forms and a railroad track into the building are featured.

Stacey Bowers works as a project architect for Mills Group. Her background includes commercial and industrial projects, educational facilities, historic properties, residential projects, renovations and additions. Stacey also is a professor of Architecture at Fairmont State University.

Stacey has experience working with a variety of clients including local governments, county commissions, county school systems as well as different funding agencies and the WV State Historic Preservation Office. Stacey is also registered with the WV State Fire Commission as a certified Building Code Plans Examiner where she would perform code reviews for a local municipality.

EXPERIENCE

Actors Guild of Parkersburg - Parkersburg, WV

The Actors Guild was awarded a matching grant from the WV Division of Culture and History to begin multi-phased renovations upgrade to the historic theater. Phase I involves expanding restroom facilities and installing an elevator base. Phases II and III call for expansion of the lobby, completing the elevator installation, moving the main entrance and refurbishing the rehearsal hall.

St. Mary's Church - Petersburg, WV

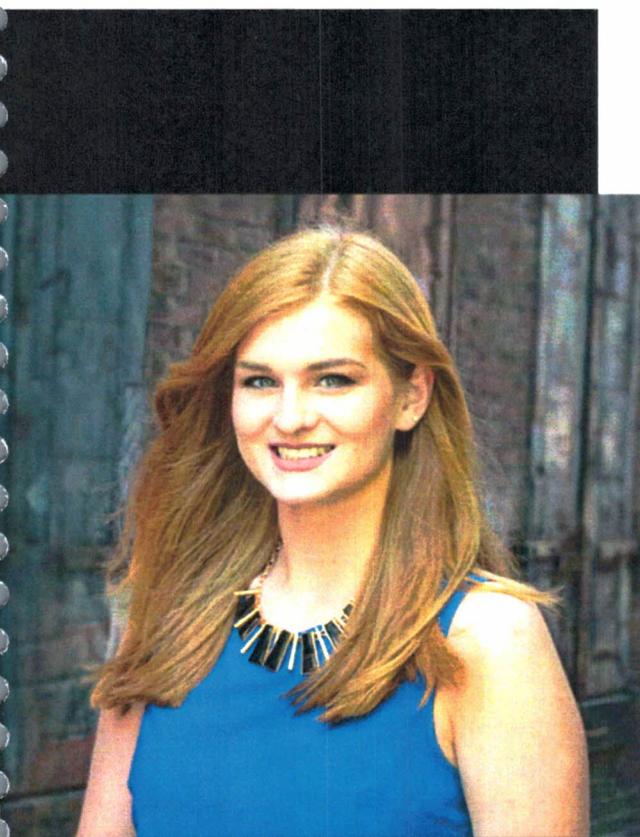

Documentation of existing conditions assessment for the rehabilitation of the St. Mary's Parish. Completed as-built drawings, building evaluation, and concept plan for expansion of historic church building.

MVB Bank Inspections - Fairmont, WV

Stacey conducts periodic visits (bi-weekly and monthly) to the project sites to monitor construction progress, take photographs, verify payment applications and create progress reports to document each visit.

Rivertown Hotel - Hinton, WV

Rivertown Hotel consists of the rehabilitation of this historic hotel consisting of a lobby and event venue on the ground floor and 18 guest rooms on the second and third levels. With Stacey being in project management, she assists the principal and interior designer during design and construction documents phase, code review, scheduling, and coordinating structural and MEP consultants.

Carlie Wolfe

UNIVERSITY

BIOGRAPHY

Carlie is the Interior Design Associate at Mills Group. Her background includes commercial properties, historic adaptive reuse, residential projects, existing building renovations, and additions. As the lead interior designer, Carlie manages a variety of project elements, including interior space planning, finish and fixture selection, rendering 3-D models, creating concept presentations, and producing construction documents to ensure that each project seamlessly transitions from concept to reality.

EXPERIENCE

Scholar Hotel – Morgantown, WV

Carlie led the interior redesign of the Scholar Hotel. The design of the hotel pays homage to the pride of West Virginia University and Morgantown. The finishes included industrial elements such as reclaimed brick and leather furnishings. Amenities included in the new redesign were a full-service bar, business center, extended-stay suite and a fitness center.

Oglebay Foundation Interiors – Wheeling, WV

Mills Group provided the interior design and furniture selection for the rehabilitated Oglebay Foundation Offices in Wheeling. Separated by a zero-edge sliding glass wall system, the space features private offices, a conference room, and a lounge. An original brick fireplace and mantle anchors the space and provides a glimpse into the history of the building. The new design utilizes rich textures to contrast the ultra-sleek glass wall system, along with a tranquil color palette which pays homage to the character of the historic building and surrounding property.

Tony's Spa Interior Fit-Out – Triadelphia, WV

Mills Group designed the interior fit out of a nail salon located at The Highlands in Triadelphia. The modern and luxurious neo-traditional interior design included crisp finishes, all custom millwork, wall fountains, and massage rooms. Custom manicure tables designed with an underground exhaust venting system ensures the minimization of chemical fumes in the salon and surrounding tenant spaces. Both privacy and product display are achieved through the use of custom wood slat screen walls. Lighting design throughout provides high visibility at task areas while still allowing for a warm and relaxing experience

MILLS GROUP
ARCHITECTURE • PLANNING • PRESERVATION

Both Twin Falls and Hawks Nest State Park Lodges were designed by a team of architects called The Architecture Collaborative (TAC) which was led by world renowned modern architect Walter Gropius. While the buildings are significant for their modern architecture, the HVAC system needed to be improved for energy efficiency. An American Recovery and Reinvestment Grant allowed the two state parks to install efficient equipment and upgrade the heating and air conditioning in the lodges. Because of the historic and architectural significance of the two lodges, Mills Group was asked to serve as a monitor to ensure that the project met the Secretary of the Interior's Standards as well as complied with the Federal law, Section 106 of the National Historic Preservation Act of 1966.

Mills Group served as the liaison between the project manager and the State Historic Preservation Office, documented the efforts of the team as they installed the units, and compiled data to comply with Federal and state regulations.

Oglebay Wilson Lodge West Family Wing

Construction Administration

CONSTRUCTION VALUE :

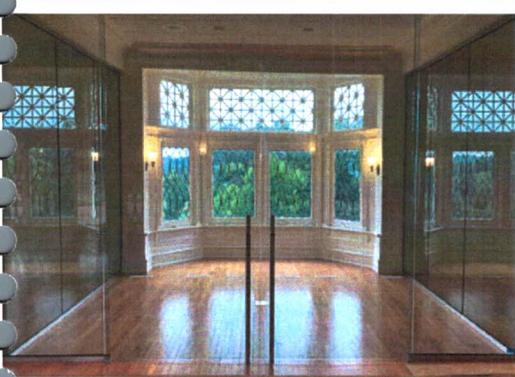

\$3 Million

Mills Group led the renovation of the Oglebay Wilson Lodge West Family Wing.

The renovation included the complete interior demolition of the second level to create two guestrooms out of the space previously occupied by three guestrooms. The first level guestrooms were renovated to receive new fixtures and finishes. The second level guestrooms included new balconies entered from the guestrooms on the north face of the wing. All new windows and finishes were installed throughout the wing.

To improve accessibility within the Lodge, a new elevator was installed as well as updating the existing corridor ramps to meet the current ADA requirements. A new mid-wing two-story entry was added to provide a central access entry point into the wing and a communal point for guest vending and laundry services.

MILLS GROUP
ARCHITECTURE • PLANNING • PRESERVATION

Mills Group was tasked with redeveloping the former Oglebay Burton Hall guest house into a multi-functional space for the Oglebay Foundation. The goal of this adaptive reuse project was to maintain the historic aesthetics of Burton Hall by restoring the original fireplace and mantle, along with oversized interior moldings.

At the building's first floor, a 1,600 sq. ft. build-out was renovated to include the CEO's office, an event space, and visitor's center. This level also includes space for support staff, a kitchenette, restroom, and storage. Sleek, floor-to-ceiling glass walls define the interior programming and contrast with the ultra-traditional interior to allow for high levels of natural light and dramatic sightlines throughout the multi-use space. Mechanical and electrical systems were seamlessly and invisibly integrated into the highly-exposed interior space.

Blue Sulphur Springs Pavilion

Margaret Hambrick

304-646-2439

SERVICES : Historic Structure Report
and Existing Conditions Assessment

CONSTRUCTION VALUE :

\$1 Million

 **MILLS GROUP**
ARCHITECTURE • PLANNING • PRESERVATION

The Greenbrier County Historical Society chose Mills Group to conduct an existing conditions assessment, describe the written and architectural history of the Blue Sulphur Springs Pavilion and offer a plan for its stabilization and reuse.

The Blue Sulphur Springs Pavilion was constructed ca. 1836 as the centerpiece of a health resort along Kitchen Creek in Greenbrier County, (West) Virginia. Although it was regarded as superior to the other springs in Western Virginia in terms of comfort and beauty, the resort was also not as fashionable as the White Sulphur Springs located 26 miles to the east. As a result of the declining popularity of the resort and nationwide economic instability, the property was transferred into the hands of gentlemen who created Allegheny College, a seminary for Baptist students in 1859. With the outbreak of the Civil War, the college lost both students and several structures, as part of the resort was destroyed by fire in 1863. All that remained of the property was the Greek Revival inspired pavilion which continued to be enjoyed by picnickers throughout the 20th century.

In 2013, the Greenbrier County Historical Society acquired the property and with Mills Group's help, established a plan to restore the structure. This plan includes reusing as much original material as possible and incorporating the interpretation of the pavilion's history and restoration. The first step of the restoration is to stabilize the existing structure.

Old Inn Cacapon Resort State Park

LOCATION : Cacapon, WV
CLIENT/PROJECT MANAGER :
WV DNR Parks and Recreation
James G. Schotsch
304-558-2764

SERVICES : Restoration & Masterplan
CONSTRUCTION VALUE : N/A

 **MILLS GROUP**
ARCHITECTURE • PLANNING • PRESERVATION

The Old Inn at Cacapon Resort State Park in Berkeley Springs, WV was constructed in 1938 as part of a Civilian Conservation Corps project at nearby Camp Morgan as the first overnight lodging facility within the state park system. The Old Inn was originally built as a one and a half story hand hewn log structure with three wood burning chimneys. By the early 1940s, the increasing number of visitors to the State Park required the Old Inn to be enlarged. In order to protect the log structure from decay, officials decided to clad the entire building in board and batten wood siding circa 1960.

The WV Division of Natural Resources (DNR) hired Mills Group to assess the integrity of the log structure and develop a plan to stabilize the building and its continued maintenance. Because the DNR used Federal money to assess the building, they were bound by Section 106 of the National Historic Preservation Act of 1966 to assess the effect of their actions on the structure. Mills Group also acted as a liaison between the DNR and the State Historic Preservation Office.

The building had been changed slightly during the years to accommodate wall mounted air conditioning units. Otherwise, the building was in remarkably good shape and is slated to be restored to its early 1940s appearance with the exposed log exterior. Mills Group devised a plan to rehabilitate the historic log structure and adapt it for continued use for the future.

Fairfield Inn and Suites

LOCATION : Triadelphia, WV

CLIENT : Century TC5, LLC

SERVICES : Architectural Design
Development, Construction Documents,
Coordinating Consultants,
Construction Administration

CONSTRUCTION VALUE :

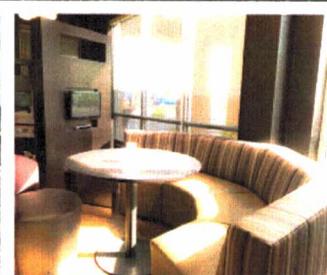

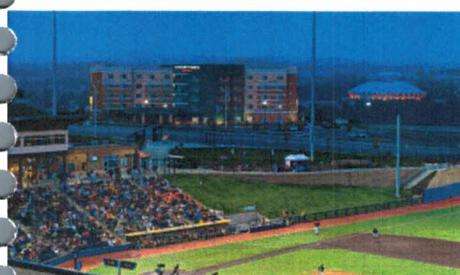

Withheld per owner's request

Mills Group led the design and construction effort to develop a new hotel, retail and conference center in the Highlands Town Center Development of Triadelphia, West Virginia. The Fairfield Inn & Suites Hotel offers one hundred and five suites with varying guestroom types.

At ground level guest amenities include an enclosed pool and a fitness room, an expanded lobby area, food services and meeting rooms. While leading the architectural design, Mills Group coordinated the consultants necessary to complete the project including a team of structural, mechanical, electrical, plumbing and civil engineers, swimming pool and information technology consultants.

The hotel is unique as it is designed to fit within the context of the Highlands Town Center Development. The first level is designed to incorporate retail space as well as provide an outdoor seating area for the hotel. The four story structure is a combination of steel and wood framing. The exterior will be clad in EIFS and masonry selected to complement the existing Town Center buildings and to comply with the Marriott brand prototypes.

Coordinating Consultants, Construction
Administration

CONSTRUCTION VALUE :
\$17 Million

Mills Group designed a new five-story Courtyard by Marriott hotel adjacent to the Morgantown Black Bears Stadium in Granville, WV. Collaborating with a design-build team including West Place, LLC and Waller Corporation, Mills Group provided full design services from conceptual site design to construction documents for the new structure.

The new hotel building includes an indoor pool, business center, conference rooms, and a generous public space with a bar and bistro. The outdoor lounge space, complete with a fire pit, provides guests with expansive views of the Monongahela River and downtown Morgantown.

Adventure West Virginia Restrooms

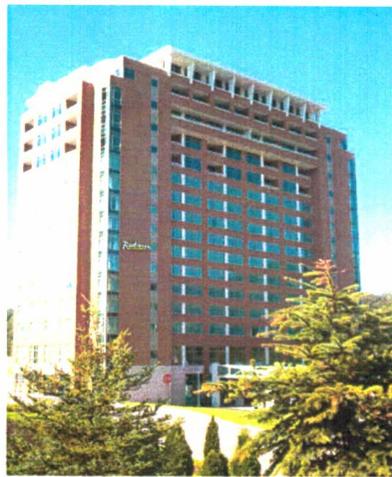

LOCATION : Morgantown, WV
CLIENT/PROJECT MANAGER :
West Virginia University
Joshua Shinn
304-293-9092

SERVICES : Design Development
CONSTRUCTION VALUE : N/A

MILLS GROUP
ARCHITECTURE • PLANNING • PRESERVATION

West Virginia University chose Mills Group to design an easy to assemble building to serve as a restroom facility for their Adventure WV Outdoor Education Center. The new facility serves both men and women by offering restrooms and showers for visitors to the site while also providing storage for the maintenance crews. The water supply to the building is provided by storage tanks adjacent to the building while the wastewater treatment is addressed through a septic tank and leach field.

Mills Group designed a turn-key facility which was ready for immediate use upon delivery to the site. Mills Group envisioned a building that incorporated natural-looking elements such as a log exterior with the durability of concrete fabrication.

STATE OF WEST VIRGINIA
Purchasing Division

PURCHASING AFFIDAVIT

CONSTRUCTION CONTRACTS: Under W. Va. Code § 5-22-1(i), the contracting public entity shall not award a construction contract to any bidder that is known to be in default on any monetary obligation owed to the state or a political subdivision of the state, including, but not limited to, obligations related to payroll taxes, property taxes, sales and use taxes, fire service fees, or other fines or fees.

ALL CONTRACTS: Under W. Va. Code §5A-3-10a, no contract or renewal of any contract may be awarded by the state or any of its political subdivisions to any vendor or prospective vendor when the vendor or prospective vendor or a related party to the vendor or prospective vendor is a debtor and: (1) the debt owed is an amount greater than one thousand dollars in the aggregate; or (2) the debtor is in employer default.

EXCEPTION: The prohibition listed above does not apply where a vendor has contested any tax administered pursuant to chapter eleven of the W. Va. Code, workers' compensation premium, permit fee or environmental fee or assessment and the matter has not become final or where the vendor has entered into a payment plan or agreement and the vendor is not in default of any of the provisions of such plan or agreement.

DEFINITIONS:

"Debt" means any assessment, premium, penalty, fine, tax or other amount of money owed to the state or any of its political subdivisions because of a judgment, fine, permit violation, license assessment, defaulted workers' compensation premium, penalty or other assessment presently delinquent or due and required to be paid to the state or any of its political subdivisions, including any interest or additional penalties accrued thereon.

"Employer default" means having an outstanding balance or liability to the old fund or to the uninsured employers' fund or being in policy default, as defined in W. Va. Code § 23-2c-2, failure to maintain mandatory workers' compensation coverage, or failure to fully meet its obligations as a workers' compensation self-insured employer. An employer is not in employer default if it has entered into a repayment agreement with the Insurance Commissioner and remains in compliance with the obligations under the repayment agreement.

"Related party" means a party, whether an individual, corporation, partnership, association, limited liability company or any other form or business association or other entity whatsoever, related to any vendor by blood, marriage, ownership or contract through which the party has a relationship of ownership or other interest with the vendor so that the party will actually or by effect receive or control a portion of the benefit, profit or other consideration from performance of a vendor contract with the party receiving an amount that meets or exceeds five percent of the total contract amount.

AFFIRMATION: By signing this form, the vendor's authorized signer affirms and acknowledges under penalty of law for false swearing (W. Va. Code §61-5-3) that: (1) for construction contracts, the vendor is not in default on any monetary obligation owed to the state or a political subdivision of the state, and (2) for all other contracts, that neither vendor nor any related party owe a debt as defined above and that neither vendor nor any related party are in employer default as defined above, unless the debt or employer default is permitted under the exception above.
